            <h2>Treaty of Versailles</h2>
            <p>
                Signed in 1919, the Treaty of Versailles placed heavy penalties on
                Germany, including territorial losses, military restrictions,
                and war reparations.

            <h2>Long-Term Impact</h2>
            <p>
                The war led to the collapse of empires, redrew national borders,
                and created political instability in Europe. Many historians
                believe it directly contributed to the outbreak of World War II.
